INDEX

Abadalejo, Garcia H.: Endocrine alterations of syphilitc origin 790
Abasanez, E.: Case of thyroid insufficiency 142
Abderhalden, E.: Substances with specific action prepared from organs 643
— (Brammertz): Specific action of substances from single organs (optones).....643
— (Gellhorn): Specific action of substances from single organs (optones).....643
——— Tissue extracts with specific action 500
Abel, J. J. (Nagayama, T.): Histamine in the pituitary gland.507
Abelin, J.: Influence of iodine compounds on metamorphosis of frog larvae.....682
Achondroplasia, two cases of... 89
Acidosis and creatinuria in diabetes 490
— diabetes 638
— fat diet 638
Acosta (Gamero and Gutierrez): Adrenin, injections intralargeally in the treatment of chronic bronchitis and bronchial asthma 96
Acrocephaly and scaphocephaly with symmetrical malformations of extremities 661
Acrocyanosis, chronic 368
Acromegaly 479, 653
— and diabetes insipidus.....263
——— Recklinghausen's disease..260
——— tabes 260
— case of.....361
— heart in 256
— hypophyseal tumor and bitemporal hemianopsia 259
— late, case of.....262
— of acute onset.....363
— organ weights in.....263
— post-mortem 362
Acromegaly, relation to hypophyseal adenomas 263
— with goiter 260
——— myxedema, case report....655
Adachi, O. (Tanaka): Hypophyseal changes in diphtheria....115
Adams, F. D.: Spreading of pancreatic carcinoma by blood-vascular invasion 504
Addis, T.: Early diagnosis of diabetes 100
Addison's disease 357
——— accompanied by pluriglandular sclerosis 253-254
——— and congenital lack of adrenals 94
——— and hypertension 339
——— loss of adrenin.....297
——— pigmentation 620
——— pregnancy 784
——— associated with exophthalmic goiter, opotherapy of 92
——— case of 91, 781
——— cured 241
——— changes in adrenals in....340
——— following renal tuberculosis, case of.....240
——— simulation of in abdominal tumor 241-242
Addison, W. H. F. (Thorington): Behavior of the interstitial cells of the testis towards vital dyes 138
Adiposis dolorosa, hypophysis in.800
Adiposity 499
— and idiocy; thyroid-hypophyseal medication in.....254-255
— constitutional, endocrine organs in 254
— endogenous, case of.....132
Adiposo-genital dystrophy 357
——— and epilepsy 123
——— report of case..... 21
— syndrome, experimental 797
——— with hypophyseal tumor and radio-therapy 124

Adler, L.: Physiology of amphibian thyroid 513
— Sexual differentiation in rana temporia 510
Adolescence and Graves' disease 276-277
Adrenal ablation, effect of on metabolism 617
—— salivary reflex after.....782
— action, notes on.....624
—— theory of 108
— Addison's disease and pigmentation 620
———— post-mortem findings ..340
— alterations 338
— and anaphylactic shock.....337
—— beriberi 621
—— edema 620
—— epilepsy 617
—— hemangiectases 243
—— male gonads, relation between 236
—— pancreas in diabetes.....505
—— polyneuritis 620
—— purine metabolism 623
—— the emotions 328
— adrenin content of, in various diseases 99
— as etiological factor in endogenous adiposity 132
— asystoly 300
— atrophy of, and hydrocephalus 240
— biochemistry of 255
— blood flow in dog..... 90
— caseous tuberculosis of, with sudden death 618
— changes in—after removal of pancreas 806
— chromaffin content of in experimental puncture diabetes 337
— congenital lack of, and Addison's disease 94
— cortex, studies of, after death from scalding 243
—— relation to Graves' disease and myxedema 781
—— relation to pancreas and diabetes 785
— deficiency in secondary syphilis 780
— dyspepsia 301
— early human development....341
— effect of, removal of on poison susceptibility 782
—— on chromaphil substance of fettering 618
— embryology of 781
— emotional hypertension.....126
— enlargement of, in diabetes...339
Adrenal, extirpation for epilepsy.783
———— spasms 618
—— in epilepsy 784
— extract in Addison's disease..241
— function and under-nutrition.622
— glycosuria, effects of route of administration on 617
— grafts in tadpoles .....
— hemorrhage in children..... 90
———— man of 64..... 94
———— newborn 623, 785
— histopathology, and tetanus intoxication 94
— hyperglycemia 90
— hypernephroma of 244, 619
— hypo- or dys-function of.....244
— in Addison's disease: tubercular 91
—— anaerobic infections 662
— infarction 240
— in inanition 624
—— relation to the action of hypophysis extract 783
—— spasmophilia 480
— insufficiency 283, 335
—— and gastric ulcers..... 91
———— neurofibromatosis 479
———— shell shock 302
—— clinical views 297
—— physiological data 283
— irradiation 480
— malignant tumor of.....336
— method of outlining, by radiography (Carelli and Sordelli) 779
— musculature of veins of, in man 90
— new compound from..... 92
— opotherapy in Basedow's disease 784
— partial removal in guinea pigs and antibody production... 90
— parts homogenously functioning, cholesterol of, as antitoxin 242
— post-operation depletion of epinephrin store in the....623
— radiation, effect of, on metabolism in diabetes.....780
— reaction of, to adrenin.....783
— recent studies on..... 92
— reduction and blood-sugar in spasms 335
—— effect on differential cell count 244
— relation of liberation of epinephrine from to spinal cord. 93
———— to thyroid and brain..780
———— to spermatogenesis 783

Adrenal, relation to blood-pressure in embolism..... 92
— removal in epilepsy.....239, 337
— — in frog and toad.....782
— sarcoma 342
— secretion and the splanchnics.338
— support, principles of.....619
— surgery in spasmophilia.....624
— therapy in gastric superacidity 338
— treatment of Addison's disease 240
— — — associated with Addison's disease, and exophthalmic goiter ... 92
— — — by x-ray and effect on sugar of blood and urine 249
— tuberculosis of in man, case report 91
— tumor 239, 340, 479
— — accompanied by cardiac hypertrophy 336
— — in congenital dystophic kidney 244
— — relation to blood pressure.341
— — with macrogenitosomia precox in 3 year old girl....779
— — — myocardial hypertrophy.239
— vein, musculature 621
— vitamine content of.....256
— weight and vitamine deficiency 339
— x-ray treatment of, in diabetes 617
Adrenalectomy, salivary reflex after 783
Adrenin action and vagus stimulation 484
— — of, and chloroform on heart 482
— — — on retractor penis of dog 246
— — — — stored protein of liver 630
— — — — tissue cultures 245
— — on bladder 481
— — — perfused heart 95
— — — cardio-inhibitory center.481
— a diagnostic test between hyperthyroidism and tuberculosis 394
— administration by alimentary tract 96
— after thyroidectomy 500
— and anti-body formation.....625
— — blood sugar regulation....494
— — bulbar puncture 483
— — cardiac excitability 95
— — emotion 110
— — quinine antagonism of....245
Adrenin and white cell count....630
— antagonistic actions of, on auricular tonus 482
— — action of, toward nicotine, digitalis and barium chloride 628
— apnoea 245
— as antidote to morphine.....786
— — factor in vasomotor reaction to pituitrin 122
— assay of 485
— cardiovascular reaction to....245
— concentration, physiologically active 721
— constrictor effect of, in rabbit ear 629
— content in anaphylaxis 486
— — of suprarenals in various diseases 99
— depressor action of, reversed.626
— — — antagonized by tissue extracts 342
— diabetes, kidney permeability.629
— discharge and splanchnic stimulation 483
— effect of, after chloralose.....785
— — — blood picture 486
— — — cerebro-spinal fluid....785
— — — physostigmine on output of 622
— — on blood 246
— — — — and splenic function 99
— — — — sugar rise after glucose 625
— — on cerebrospinal fluid 624
— — — gastric secretion 628
— — — heart, reversed by nicotine and ergotamine..624
— — — tonus in terrapin heart.482
— — — venous pressure 343
— emotional reaction to..... 97
— experimental diabetes and diminished renal permeability 344
— explanation of the increased blood count from.....485
— glycemia 481
— glycosuria and caffein poisoning 779
— — acids and alkalies.....627
— hyperglycemia 786
— hypertension 628
— hypophyseal extract and histamine on blood-pressure..363
— influence of, on calcium metabolism 787
— — on bile secretion.....484
— — — blood 626
— — — reactions following arsphenamine administration 345

Adrenin in Graves' disease.....127
— inhibitory effect antagonized by tissue extracts.....343
— injections, action 625
— — and blood pressure changes.607
— — in dementia precox..... 97
— — influence of, on blood picture 95
— — in hemorrhoids 344
— — into heart as therapy for narcotic poisoning 96
— in spasm of the oesophagus..357
— — tachycardia 786
— intratracheal injections in chronic bronchitic and bronchial asthma 96
— in treatment of corneal ulcer of exophthalmic goiter.....154
— — — — — dystrophia adiposogenitalis 25
— — — — — otosclerosis 342
— — — — — vertigo 343
— — vomiting of pregnancy....344
— lethal dose in man..... 95
— medication in asthmatic crises 89
— mydriasis in chronic nephritis.344
— not detectable in blood in rickets 626
— output, influence of atropine and pilocarpine on.....486
— papaverin in blood pressure in man 626
— peroral administration of....340
— pressor effect of augmented by thyroidin and hypophysin..825
— prophylactic effects of.....483
— reaction in bronchial asthma..481
— — of adrenal to.....783
— restorative effect of, in chloroform poisoning 485
— role in intestinal disturbances.111
— test of cardiopathies.....627
— therapy in Graves' disease...699
— vegetative nervous system....629
Adrenalism, acute 480
Agglutinins, increase of, due to endocrine organ preparations.253

— — report of case 577
Hypophysectomized tadpoles united to normal individuals 658
Hypophysectomy, diuresis after .. 799
— effect of poisons after 782
Hypophysin, sensitizing action of for adrenalin 825
Hypophysis, acromegaly of acute onset 363
— achondroplasia 89
— action on renal function 125
— — theory of 108, 109
— and blood sugar regulation ... 494
— — diabetes insipidus 86, 364
— — gigantism 262

Hypophysis and its active principles 117
——— pigmentary, growth and endocrine disturbances in tadpoles 234
——— pineal in pigmentation changes 659
——— prostate 800
——— Raynaud's disease ... 264-265
——— scleroderma 120
——— thyroid therapy in myxedema 691
— anterior lobe and thyroid feeding 658
— as antigen in dementia precox complement deviation test. 691
— asthenia due to insufficiency of 261-262
— biochemistry of 255
— cachexia, and syphilis of 117
— case of acromegaly 361
——— of symmetrical lipodystrophy 264
— cancer of, with cachexia and metastases in lungs 116
— cerebri, an anatomical consideration of; effect of extracts of parts of 797
— changes in, after removal of pancreas 806
——— experimental diphtheria. 115
——— in hibernation and inanition 43
——— syphilis of the brain ... 362
— connection of, with diabetes insipidus 118
— diabetes insipidus 491, 660
——— complete recovery from. 361
— disturbances of functions of in relation to diabetes insipidus 263
— dysfunction in pregnancy 356
— dystrophia adiposogenitalis 117, 360
— early diagnosis of tumor of .. 115
— effect of feeding anterior lobe of, on oestrous cycle of rat. 655
——— thymectomy upon 769
— enlargement of following castration 174
— experimental radiation of 798
— experiments in the transplantation of adult glands to tadpoles 115
— extracts, action of 799
——— action of, on diuresis in dogs and rabbits 120
——— on gastric contraction 798
——— adrenals in relation to the action of 783
Hypophysis Extracts and histamine on blood pressure 363
——— of, effects on gastric secretion 656
——— in diabetes 657
——— influence of, on peristalsis. 800
——— titration by the islodate uterus method 266
— Fröhlich's syndrome 361
— functional relation to thyroid. 362
— histamine as a constituent of. 119
——— in 509
— histology of adenomas of and relation to acromegaly 263
——— anterior lobe of 659
— in anaerobic infections 662
——— encephalitis lethargica. 123, 362
——— etiology of adiposis dolorosa 800
— infantilism and syphilis 362
— influence of anterior lobe of on development of rats 657
——— on growth 656
——— x-ray on 362
——— lethargica encephalitis 364
——— thyroidism 653
——— treatment of senile osteomalacia 123
— injections, effect on blood-pressure of febrile patients. 125
— narcolepsy 659
— not concerned in diabetes insipidus and dystrophia adiposogenitalis 761
— of woodchuck, morphology of. 33
— operations on, technic of 266
— pathology of; relation of the kidney 800
— polyuria 655
— posterior lobe extracts in headache 360
——————— hemorrhage and labor 364
— products from 259-260
— radiography of sella turcica .. 361
— relation of, to amphibian metamorphosis 79
——— formation of cerebrospinal fluid 797
——— to gonads 36
— removal 657
——— of epithelial pigment changes following 221
— role in intestinal disturbances 111
— structure of in domestic animals 174
— the essentiality of the buccal component for the continuance of life 658

Hypophysis therapy by deep x-ray treatment 363
— — in adiposo-genital dystrophy and epilepsy 123
— — — cystoplastic osteitis....119
— transplantation of parts of in tadpoles, differential results.652
— tumor and distortion of the visual field.....261
— — in domestic animals.....174
— — of 262, 263, 264, 265, 266, 499, 656, 657
— — — and of adjacent structures 124
— — — infundibulum, structure and oncological position 265
— — — obesity and diabetes insipidus 160
— — — regression of adiposo-genital symptoms on radio-therapy 124
— — — results of surgical removal in four cases..125
— — — surgery 363
— — — with acromegaly and bitemporal hemianopsia 259
— — — — general edema in two cases of nanism...122
— vascular reactions to extracts of various parts of; discharge of hypophyseal secretion 121
— x-ray application to.....799
— — treatment of in asthma....259
Hypophysis-thyroid syndrome...260
Hypothyroidism and edema due to war diet.....279
— congenital endemic 685
— diagnosis and treatment.....515
— thyroxin injection in.....693
Hysteria, pseudo and hyperthyroidism 149

Otis, E. A.: Differential diagnosis of tuberculosis 395
Oto-laryngological affections, thyroid etiology of.....815
Otosclerosis, adrenin in treatment of 342
— relation between, and tetany 270, 271
Ottow, B.: Eugenic prevention of conception: vaserotomy: testicle autotransplantation.....652
— cf. Lipschütz, A.....809, 810
Ovarian dysfunction, causes of..542
— hormone and pelvic growth..371
— substance in hyperthyroidism.142
Ovariotomy and tuberculin reaction 502
Ovaries, cyclic changes and their relation to the mechanism of implantation of the embryos..664

Ovary, action of extracts of.....372
— and blood sugar.....665
— artesia granulosa of rabbit...667
— cancer of, involving sigmoid flexure 131
— cortical layer of.....503
— deficiency of, differentiated from myxedema 820
— dysfunction of, treatment with "ovobrol" 268
— edemas 504
— effect on, of x-ray treatment of hypophysis 799
— function 667
— functional and therapeutic aspects of 664
— formation of cortical layer of, in rabbit 668
— graft, evolution of placenta after 667
— grafts of goat and sheep.....666
— hirsutism, virilism.....354
— hypertrophy of surviving, after semispaying 267
— influence of iodine on.....268
— in relation to uterine hemorrhage 666
— interstitial cells of ovary in pregnancy 665
— — gland of ovary.....666
— nature of luteal and interstitial cells of; tissue culture of 806
— neoformation in transplanted.664
— optones and milk secretion...668
— Pflüger's cords of, their atresia.667
— postnatal development and number of ova.....130
— rapid maturation by transplantation to adult animals....665
— relative to endometrial hyperplasia and functional uterine bleeding 131
— removal of, in osteomalacia..370
— specific hormone of.....268
— the non-atresic Graafian follicle of, in the rabbit.....667
— the ripe Graafian follicle and its mode of rupture.....131
— transplantation 503
— tumor of, with precocious menstruation 130
— vitamine content of.....256
— x-ray treatment of, with cure of goiter and cardiac insufficiency 143
Ovogenesis in the sexually mature mouse 663
Ovotestis, atypical structure of..650
— genesis of 650
Ovulation, corpus luteum and
— menstruation 498, 667
— normal and pathological and the related uterine process.130
— the physiology of.....371
Owensby, N. M.: Role of emotions in functional nervous diseases and dementia precox....803
Oxycephalia and nanism.....129
Ozena, endocrine therapy in....111

Paddock, R.: cf. Alexander, H. L. 481
